Office & Bulk Plant Located at:
N59 W14765 Bobolink Ave.
Menomonee Falls, WI 53051
FAX (414) 252-6155

December 6, 1999

TO WHOM IT MAY CONCERN

We have examined the components of both the Centron GT and Centron DT developed and marketed by The American Energy Group. It is our opinion that both products will biodegrade at a rate faster than Gasoline and Diesel fuel.

It is also our opinion that when these products are added to either gasoline or diesel fuel the resulting mixture will biodegrade at a rate faster than the petroleum hydrocarbon alone.

Lastly the Centron products do not contain MBTE and in our opinion will not accumulate in the environment; rather with time it has been proven the components of Centron will biodegrade.

Mike Scick

Director Of Quality Assurance

MILSOLV® • SOLVING Our Customer's Needs With Quality Products From:

AIR PRODUCTS - ALBEMARLE - ALBRIGHT & WILSON - ALLIED SIGNAL - AMOCO - ANAR CHEMICAL - ANGUS - ATOCHEM - BASF - BUSH BOAKE ALLEN - CALUMET - CEEFREE PRODUCTS, LTD - CENTRAL SOYA
