Re: American Energy Group, Inc. Gasoline and Diesel Fuel Additives

Dear Mr. Herro:

I have reviewed the information you sent me concerning your Centron and Pro Motion gasoline and diesel fuel additives. When added to gasoline or diesel fuel at concentrations up to 4 oz per 10 gallons, these materials will have no effect on Containment Solutions, Inc. fiberglass reinforced plastic underground storage tanks.

If I can be of any further assistance, please do not hesitate to call.

Sincerely,

William Schneider  
Director of Research and Development
